⚡ Battery capacity:	210 Wh**
⚡ Voltage:	43 V

\* **Compatible with 3A Charger**

\*\* **FAZUA ENERGY 210 range extension depending on bike model**

# FAZUA RIDE 60 Drive Unit

The RIDE 60 Drive System has been developed to suit cyclists' needs down to the last detail. What makes each of the components so special:

## THE HEART

The RIDE 60 DRIVE UNIT is the heart of the system. It's light and silent, powerful and compact – and guarantees FAZUA's inherent natural, smooth pedal stroke. The unit weighs in at mere 1.96 kg and its slim shape allows an elegant integration into the frame.

Weight

**1,96kg**

**4.32lbs**

FAZUA

# FAZUA Energy 430 Fix

## THE ENERGY SOURCE

Even more compact and lighter than the Energy 430 is the Energy 430 fix. At only 2.2 kg, it allows for an even more integrated frame solution. When moving the bike, the battery is automatically switched on.

Weight

**2.2kg**

**4.85lbs**

Battery capacity

**430Wh**

# FAZUA Ring Control

## INTUITIVE DESIGN

The minimalistic RING CONTROL on the handlebar utilizes an incredibly intuitive design. Here you can choose the riding mode, turn on a light and the walk assist – all without taking your eyes off the trail.

# FAZUA LED Hub

## VERSATILE HUB

The LED HUB with its five color LEDs informs you not only about the battery charge and your riding mode. It also features a USB-C charging option, e.g. for your smartphone or GPS device, and an interface for ANT+ and bluetooth.

## FAZUA RIDING MODES

Choose from three preset riding modes to adjust the support and give your ride that extra energy. All modes can be fully customized using the FAZUA app.

### • BREEZE

- Gentle and constant tailwind even with low pedaling power and cadence.

### • RIVER

- Progressive and very athletic mode.
- The strength of the support precisely follows your own power input. The more you give, the more support you get.

### • ROCKET

- Powerful assistance that helps you tackle the steepest and most difficult sections. NEW Boost function. This function briefly increases to 450 watts, no matter which support mode the cyclist uses.

# Equipment

## FAZUA APP

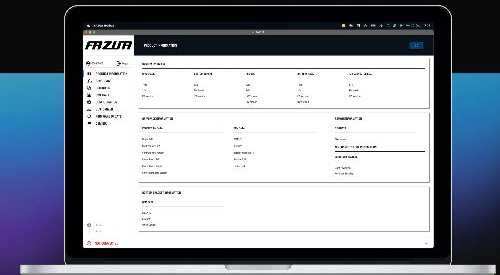

With the FAZUA app, the riding modes can be completely individualized, predefined profiles can be downloaded directly and updates can be carried out wirelessly.

[Available for Android and iOS](#)

## FAZUA TOOLBOX SOFTWARE

The FAZUA desktop Toolbox Software provides dealers and the cyclists themselves with uncomplicated configurations, updates and error diagnostics on their own computer.

## FAZUA FIRMWARE

The FAZUA firmware is the result of close collaboration between our software and biomechanics experts. The result: A unique, natural-dynamic riding experience with high efficiency.

Detailed product information

Assembly videos for each component

Online certification, takes ~ 2h

Live Training calendar

Manuals and Media material

# FAZUA Certified Partner

## STEPS FOR CERTIFICATION

- 1) Create QBP Account <https://www.qbp.com>
- 2) Create FAZUA B2B Account <https://dealer.fazua.com>
- 3) Pass e-learning or live training tour
- 4) Sign Contract

## ONLINE TRAINING

On your way to become a certified Service Partner you have to pass several sections. We divided the training into these parts:

- Theory
- Assembly
- Error Analysis
- Fazua Toolbox Software
- Service Issues

For each section you will take a quiz to confirm you have a good understanding of the topics. The tutorial will last about 2 hours depending on how fast you complete the quizzes. In the end you will be a certified service partner. That means we will unlock your account, so you will have access to Toolbox-Advanced, your shop will be listed on our dealer map, you will get your personal certificate, the official FAZUA Service Partner sticker and a document for the error analysis.
